Dumbarton Oaks
2015-16 Project Grants in Garden and Landscape Studies

Garden and Landscape grants are intended to support primary research of a specific site. Project grants may be used for a broad array of projects including field research, site analysis, botanical surveys, heritage conservation and restoration planning, with the goal of promoting the preservation and understanding of historic gardens and other significant designed landscapes.

The Erbil Plain Archaeological Survey [currently Iraq]. The 2013-14 Project Grant awarded to Dr. Jason Ur, Department of Anthropology, Harvard University. Image courtesy Dr. Ur.

Eligible projects may include:

- non-destructive investigation and/or excavation of a site or a garden component of a site
- materials analyses
- Surveying or photographing monuments and objects that are at risk, e.g. gardens, architecture, mosaics, and sculptures in situ

The range of awards is $3,000–$10,000. A list of previously awarded project grants may be found at:
www.doaks.org/research/garden-landscape/garden-and-landscape-project-grant-reports
Before applying, applicants must contact the Director of Studies at **landscape@doaks.org**, no later than October 1 2014, to determine if the project is within the purview of Dumbarton Oaks.

Applications
Review the qualifications and conditions, and follow the online instructions, which may be found at:
www.doaks.org/research/fellowships-and-grants/info-project-grants
Applications must be submitted electronically, via the online Embark system, by November 1, 2014.
