Mrs. Isabelle M. Stover
Reef Point, Bar Harbor, Maine

Dear Mrs. Stover:

The following books have been received at Dumbarton Oaks for inclusion in the Garden Library. These all came here from Reef Point. Will you please add them to your Dumbarton Oaks Book List? I have made the necessary cards and am also adding them to my list, copy of which you have.

Manual of Cultivated Plants - L.H. Bailey
Shrubs and Vines for American Gardens --Wyman

Bocklern, Architectura
Delices de la Riviere le Vecht
Grohmann, Recueil de Dessins --Maisons de Campagne &c
Walpole-Whateley, Observations on Modern Gardening

In another letter I am sending you a list of my expenses incurred on my trip to Reef Point, against which is credited \$50.00 sent to me by Mrs. Farrand in August.

I am writing Mrs. Farrand today, sending her a proposed questionnaire for the Berkshire Garden Center, as well as a list of books for possible purchase for use at Dumbarton Oaks. I realize that Mrs. Farrand will be starting off on her vacation in a few days so there is no rush for a check. I hope she will gain much from her sojourn in Canada and return to Reef Point full of wim, wigor and witality.

Sincerely yours,
