Dear Miss Sweeney:

Perhaps one of these days when Mr. Thacher has time he will talk over the various matters which he and I discussed with regard to your work and after he has done so, will you ask him whether you may write me as to whatever suggestions you may feel inclined to make. Personally I feel that we are starting a new phase at Dumbarton Oaks and hope before long to send you one or two pattern cards so that you will be able to keep a complete card catalogue of all the plants on the place, their position, etc. More of this will go to you from California.

Yours ever,

Beatrix Farrand
