Over so dear —

You are so keen & compre-
hending that you must
understand how much you
teach me in our days of
association — generosity
of spirit, wise counsel,
self control, patience, all
built on a foundation of
deeply laid affection &
kind helpfulness. —
Dear me, this sounds like
a sermon, but would be

impossible to speak, but
must be written & then
thrown away.

Thank you for the
Botanic Garden help, it is
close to our minds & hearts,
& thank you too for telling
me how to be more help-
ful & less of an unpleasant
& unwisely used spur. It
was deeply kind of you &
I am grateful, & will hope
to profit by what you said.

The two days were not
easy for you, & it was not
easy either to have to make
so many & various decisions,
so closely packed & yet so
different.

As always I left you,
encouraged, helped & more
full of admiration & res-
pect - affection too grows
until it nearly peels off the
roof like an unruly palm
in a green house -

Max & Trix send their
love & longing to Mr. Croft -
The hug was delivered
with compound interest -
Bless you both, my dears

Yours devoted
Trix
