

~~Full~~ Thursday afternoon. Sept 12.
~~Harvard~~ Reef Point. 4/18/43

Hildred my very dear,

Bryce will bring you
this & news of your two
"down-easters" sitting at the
edge of the quiet sea, &
enjoying the sunny days as
they pass. Bryce will tell
you about us - Max is
ever so much better than
when he came here from
the hospital two months ago -
& we plan the California
winter, a betted there is by the

doctors - I find Max beginning to work over his paper, & that's a very good omen - So I am content with the same -
men's health & grateful to Prof H.

The visit has been an unqualified success - Bryce has liked it, & has made so many friends that he wants to come back again, so we hope for an annual interchange - He has benefited & we have greatly liked having him & are truly sorry

to see him go -

Before long I shall be
back with you again, &
hope you'll have most
of your transfer packing
done - Take care of yourself
my ever so dear - you
are very close to & cherished
by
Your
Trix

A hug to you & one to
Robert -
