Washington, D. C.

Dear Mrs. Bliss:

Mrs. Farrand criticised this Forsythia Gate sketch, in rougher form, when she was in New York on November 21st and asked me to draw it up and send it to you with the request that this and the sketches of November 15th be sent to her in California when you have had a chance to look them over. These were sketches of the Forsythia Gate and Green Garden Lantern.

Mrs. Farrand also went over the Herb Garden Balcony drawings in detail and these will be sent out shortly.

I have asked Mr. Davis to show you the dummy of last July for the inscription for the Forsythia Seats. Mrs. Farrand suggested that I write to you before going ahead with the lettering and find out whether my understanding is correct:

- 1) That the division of the inscription between the two seat backs is approved.
- 2) That the spacing of the lines is approximately correct.
- 3) That "To Caroline and William" is to be tried in script.

Sincerely yours,

RMH/CS
