

Imperial Radiance: Solar Imagery and Cosmic Order

A Public Lecture

by

Ioli Kalavrezou

Dumbarton Oaks Professor in Residence

Thursday, November 15, 2012 at 5:30pm

This public lecture will explore through texts and images the place of the emperor within the Byzantine heliocentric world order. Appearance and self-presentation in literal as well as symbolic terms will be discussed, especially his association with light and its effects on perception.
