

July 13, 1948

Mrs. Isabelle M. Stover
Reef Point, Bar Harbor, Maine

Dear Mrs. Stover:

This morning I received the books forwarded
from Reef Point, as follows:

Margaret Waterfield's Flower Grouping sketches in Colour
of English, Scotch and Irish Gardens

Thornton's British Flora, 2 vols. pub in London 1812

These have been added to our collection and
cards made for the book index and added to the list of
Dumbarton Oaks garden books.

I'm practically all set to depart tomorrow
but hesitate to pack anything because of the drappiness of
the Washington weather which makes it difficult to know what
to put on or leave off. If we could only get someone to
invent absorbent paper clothing - what a relief it would be.

Looking forward to seeing you on Thursday,
until then, kindest regards and best wishes

Sincerely
