Mrs. Isabelle M. Stover
Reef Point, Bar Harbor, Maine

Dear Mrs. Stover:

I know you have more than you can attend to at this stage of Mrs. Farrand's annual leave-taking so I don't want to add any more to your already burdened desk, except that I want to let you know we have received the following and you can lay it away until things are quieter and add them to your list of things done:-- I also enclose a memorandum bill which was attached to the wrapper of Miss Gregory's package.

From F. & G. Staack, Camden, Maine--

Deam, T. Designs for Lodges and Entrances to
Parks &c., London 1811
DeMortain - Les Plans, profiles &c Paris 1714-15
Rigaud - Recueil de Vues 84 plates of gardens &c

From Gregory:-

Bowles - Crocuses and Colchicums
Farrer - On the Eaves of the World- 2 vols
Cox - Farrer's Last Journey
Leyel's - Compassionate Herbs

Thank you for sending Shillaber's notes on the collations for Rejouissances des Fetes Magnifiques and Hortus Veitchii.

I am writing Staack and Gregory acknowledging receipt of the above volumes. Write me when you can get your breath and let me know how things are going at Reef Point. Mr. P. was here again this week but I wasn't told he was coming so didn't see him either.

Very sincerely,
