

November 3, 1949

Mrs. Isabelle M. Stover
Reef Point, Bar Harbor, Maine.

Dear Mrs. Stover:

We have received today the books collated by
Miss Shillaber as follows:--

Audot, 2 vols, Traite de la composition et de
l'Ornement des Jardins, Paris 1859

Veitch, James H. - Hortus Veitchii, 1 large volume

Rejouissances et Fetes magnifiques &c., Munich 1723.

Does Miss Shillaber send her collations to Reef Point? We have never received any comments here regarding the books collated and wonder if we should have the remarks pertaining to them for our cards?

I have also received from Barrows & Company a copy of Landscape, with shrubs and flowering trees, by Mary Deputy Lamson.

We have received from abroad, purchased by Mrs. Bliss, Colasanti's le Fontane d'Italia, published in Milano in 1926. We have added this to our book list, will you also add it to yours. All these books with the exception of the Lamson book will go into the Founders' Room.

As soon as you can find time will you let me have the information on the plan file cabinet? Thank you for your cooperation I know how busy you are finishing up for the season before Mrs. Farrand's departure.

Very sincerely,
