Dear Miss Sweeney:

Your letter of the 9th has reassured me as I felt you would be short of Catalogue House material and it is a joy to know that on the contrary you are feeling rather swamped by the amount of stuff already sent you. Whenever you are ready to ask questions again I am more than ready to hear them, and shall be interested to know how the work interests you and how you find the "family."

I hope your winter in the east has been less diabolical than the California weather - floods, freezes, clouds, fog, and everything horrid - but in spite of it we seem to keep going busily and so far have escaped all serious maladies.

With best regards and the hope of hearing soon from you, I
am

Yours very truly,

Beatrix Farrand
