

Reef Point July 2. 44. 4/7/44

~~1650 ORLANDO ROAD~~

~~SAN MARINO~~

~~CALIFORNIA.~~

Dearestest -

So the "Pas de Calais"

is the sill of the continent.

Who'd have thought it -

Thank you for untangling
this knob.

A note went to Van R.

a couple of days ago,
asking for an inspection of
the two Casa S. trees &
the lawn & advice - The
rest of the letter merely
added that you & I had
had a good talk about

Botanic Garden situation,
& that you were later on
going to write General Cassi-
ner as to a few administra-
tion questions - but gave
no hints & no details -

After what we call
hot days, we are again
rejoicing in a cool north-
wind - & M. has added
another half pound - so
kind of him -

Your cricked elbow, it
looked to me painful, but
as always, you made light
of it. If it would rest
& keep you to come here for a
while, you know how we'd
love it. Your fond & devoted
Trix
