REEF POINT
BAR HARBOR, MAINE

20/6/47
June 18. 47

What a churlish recipient I am -
The Dumbar ton tiger came a fortnight ago - perfectly packed, & to stay as long as he will - One more bond between Reef Point & its sister place - He is quietly jungling near his native Korean plants & seems to feel at home - I am so glad to have him, & sorry to have been such a nuisance about him -

It occurs to me Kae - if you care to have me help you assemble

a group of books for the Oakdown
Library, I shall enjoy it greatly,
but if it does not fit in with ar-
rangements, — this suggests an
will not have been made —

Thank you my dear for the
telegram which has just come —
You were both here with us both
yesterday & every day —

It helps so much to have had
so good a leader, & to know that
your tenderness & love are always
with me —
Yours Truly
Trix
