Darling dear -

This letter about the Boh-

Par-tangle cannot stick to you  
without an added leg to my  
only & prized Microb. It's just too  
bad that you both have to be  
tormented by the need of Robert's  
being in the repair shop for a time.  
No matter how little the operation  
is, it is always a nuisance &  
the interference with the rhythm  
of life is disturbing - My  
thoughts & my heart are with you  
both - Yours ever  
Trix
