Dearest Mildred:

These will be crowded and impossible days for you before your departure for Santa Barbara, therefore this will be but a brief note and may be answered yes or no by telegram or a check on this letter. Staack has offered a very good copy in its original old binding of

Schynvoets (W.) Voorbeelden zynde Piramiden etc.
Lusthoef Cieraaden, etc.
Cieraad der Lusthoven, etc.
Amsterdam, (c.1700) and Leiden, 1730.
Together 3 vols bound in one.

for \$135. The plates are in good condition and as I have one of its three volumes in equally good condition, it would seem to me worthwhile for Dumbarton Oaks to acquire the whole three, as the price is not excessive for a book in as good condition as this is and as uncommon.

Yours ever and always,

Beatrix Farrand
