Mrs. Robert Woods Bliss
Washington, D. C.

Dearest Mildred:

Mr. Thacher is by this post receiving the manuscript for the Dumbarton Oaks article written at the "six-four-two" for Landscape Architecture. Mr. Thacher said he would kindly look through the script and send it on to Mr. Williams if he thought it reasonably accurate. He may or may not bother you with the typoscript. Individually I did not want to interrupt you and Robert even for ten minutes of your holiday.

Do forget us all and swim and sun yourself in this heavenly autumn weather.

Yours ever and always,

Trix
