Dear Miss Sweeney:

Imagine how red my face was when I opened the check book this morning to make a check and found the one to your order dated April 20th which had never been taken from the book and sent to you! Please excuse the delay. I am sending the customary temporary receipt which Mrs. Farrand likes to have signed in duplicate, and as you say you will make an accounting of your expenditures at the end of the half year in June.

We think Spring has really come here, though we still have our fingers crossed. I just can't imagine how you could have so many visitors as 6023 in one month! The three books mentioned as being ordered from Scribners have been paid for so I hope you will let me know when and if they come.

Yours sincerely,

Isabelle M. Stover
