

Memorandum for Mrs. Stover:

In re Mrs. Loudon's volumes:

Just received from Traylen of England - 2 volumes

- 1 titled Ornamental Annuals
- 1 " Perennials II

Perennials Vol II starts with plate 40, page 169 and ends with plate 90 - page 341 - there is no index of the plates in this volume. Some of the plates are misplaced numerically, but all seem to be included.

Ornamental Annuals - begins with plate No. 1 and concludes with plate No. 48, all intact, according to the plate index, but some misplaced as to the numbering. This volume has 272 pages.

The above are the two volumes just received:---

---

The volume we have, received in August, contains 341 pages, plates Nos. 1-90 inclusive, and the plate index for 90 plates. This was the one which Mrs. Farrand asked about as she thought it might be two volumes bound in one and at the time I sent her the information she asked for. From my examination of the volumes, it looks as if the plates in Vol II just received are also included in the one we have on hand, with the addition of the ones preceding 40.
