

Dear Mrs. Bliss:

I talked this morning with Miss Ruth Havey regarding the dummy for the North Bay. She assured me that she doesn't have it and said it was either still at D.O. or had been disposed of.

In a conversation with Mr. Phelps some time ago, she had an understanding that his bill would not be paid because he had not done the work. Since Mr. Thatcher's memo indicates the work is now finished, she hopes to be able to settle his bill and approve it for payment when she comes to D.O. in May.

Since May is a hectic month for her, she would like for you to let her know just as soon as possible when you want her to come down.

She has the sundial almost finished and thinks you will like it.
